ABOUT ME

I'm a Software Developer from Pakistan specializing in creating fast, scalable, and highly responsive web applications. I have a genuine love for exploring new technologies and continuously improving my craft.

EXPERIENCE

EastLancers — Full-Stack Developer (Remote)

Full-Stack Developer (Apr 2024 – Aug 2025)
- Developed full-stack web apps with Next.js, Node.js, and Express.js, featuring real-time data and scalable architecture.
- Built API integrations and handled backend logic, authentication, and database tasks using MongoDB and Prisma.

Front-End Developer (Jan 2024 – Apr 2024)
- Built clean, responsive UI components with React and Tailwind CSS, focusing on reusability and performance.
- Enhanced user experience by adding smooth transitions, animations, and interactive states using Motion and Tailwind.

PROJECTS

TmpBox   Live Link

TmpBox, a lightweight file-sharing platform enabling instant uploads without sign-ups, secure custom expiry, and one-click sharing. Designed for simplicity, speed, and privacy-first file transfer.
Tech Stack: Next.js, MongoDB, Typescript, Radix UI, TailwindCSS, AWS S3

Whisprly   Live Link

Whisprly is a real-time web chat application. It enables users to seamlessly connect, communicate, and share media in a secure, responsive and interactive environment.
Tech Stack: React, Express.js, Node.js, MongoDB, Cloudinary, Socket.io, Daisy UI, TailwindCSS

Collabex   Live Link

A video conferencing platform that lets users host, join, and schedule seamless meetings. Built for real-time collaboration with a focus on streamlined meeting setup and coordination.
Tech Stack: Next.js, MongoDB, Prisma, Typescript, Shadcn UI TailwindCSS, Motion

SKILLS

- Javascript
- Typescript
- Firebase
- HTML
- React
- Prisma
- Supabase
- CSS
- Next.js
- Motion
- Cypress
- Canva
- Express.js
- Socket.io
- MongoDB
- Bootstrap
- Node.js
- Zustand
- Redux
- Linux
- TailwindCSS
- React Query
- PostgreSQL
- Git/GitHub

EDUCATION

2023 - 2027   Bachelor of Science (BS), Computer Science
